

I understand that new LPFM stations could take priority over current FM translator service. However, I feel there is great value in national or regional services such as the radio station KLOVE, which is often heard on FM translators. I moved to this area 3 years ago, and have been listening to K-LOVE ever since. It truly serves me as a resident of the local community, through the "K-LOVE community calendar" that gives updates on local happenings in my area. It also gives resourceful and comprehensive news updates every half hour, along with wonderful music and broadcasts that are a part of my everyday life. I believe it would be detrimental to the local community if K-LOVE were to be displaced by an LPFM broadcaster providing other programming. No longer would we have a station that plays family-friendly music and provides wonderful daily resources for healthy living. I believe the service by K-LOVE is in the public interest. With so many negative media messages to be heard today, it is very refreshing for there to be a station like K-LOVE broadcast in my community, filled with positive, encouraging, and uplifting music, messages, news updates and resources. It also helps one to feel connected to our Nation at large. Please do not force a station like K-LOVE off the air. I know it profoundly affects the lives of many in a very positive way! Thank you!
